

**Introducing the Best in Value Yet Full of Features**

Joven is renowned in the manufacture of reliable and quality water heaters since 1983. With the consideration of your safety and needs for the ideal shower time, every model of Joven Water Heater is practically designed to make your shower safe and invigorating at all times.

**Temperature Control Knob**

The variable Electronic Power Control with Numeric Dial allows you to select your ideal shower temperature, thereby saving energy and cost. Also the dual LED Indicator to indicate the main electrical supply and heater are switch on.

**Technology Innovation for a Safer Shower**

We have gone through great lengths to ensure our heaters are safe in order for you to shower with peace in mind. Each heater has undergone numerous tests and is sealed with our Joven quality stamp for assurance. It's the little things we do for you that counts.

**Assurance of Quality**

Joven water heaters are manufactured under stringent quality control conditions using high quality materials and individually tested to comply with the safety standards set by SPRING (Singapore) and PSB (Singapore)
