

What is Instant Wine Enhancer?

A device# designed to 'open up' young wines, allowing them to 'breathe' and bloom, and to attain a stage of development that normally requires long periods of decanting.

It is made specifically to:

Work within a minute

Improve the drinking pleasure of young red wine

Bring out the bouquet and taste

Soften the wine

Accelerate the aging process

Special note:
This device is also suitable to smoothen hard liquors within 10 - 20 minutes

Device's energy field emission conforms to WHO safety guidelines - Ref. ICNIRP (1998) and ACGIH (1994) guidelines.

INSTANT
Wine
**ENHANCING
COASTER**

*"works within
a minute"*

**'Breathing' your wine
has NEVER
been easier, faster
and convenient...**

Instant Wine Enhancer is the world's first enhancing coaster that 'breathes' young red wines and extracts its aroma and essence out instantly!

Features

Portable, compact & operates without electricity.

Rugged, maintenance free and long lasting.

Ideal for consumers and restaurateurs who need to serve wine to guests quickly.

Smoothens hard liquors and brings out the aroma (enhancing an ordinary liquor to premium taste)

Caution:

- Do not place metallic objects on the device.
 - Results may vary with individuals and types of wine.
 - Do not over-expose your wine, keep below 3 minutes.
 - For hard liquors, keep below 30 minutes.
- Not suitable for premium liquors.

How to use

2 simple steps:

Step 1

Place your glass of wine on the coaster for a minute*.

Step 2

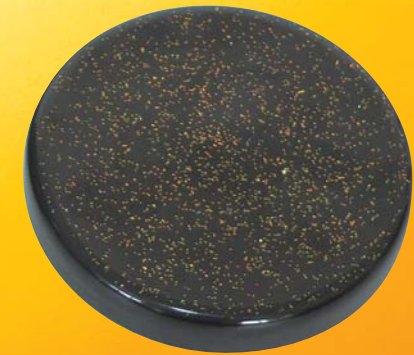

Remove your wine from the coaster.

**It's Done!
Enjoy your drink!**

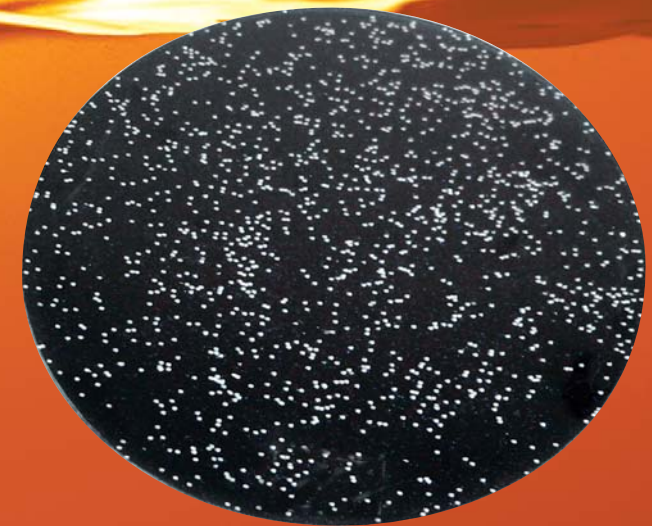

* Duration fluctuates slightly with different wines.
