## Chlorine-Free Showers *For Healthier Skin & Hair*

Chlorine is a chemical that bonds readily to organic matter such as skin or hair, destroying its natural bacterial balance. This may cause problems like dry and itchy skin or scalp, and eye irritation.

The JOVEN Shower Filter SF 101 can help to reduce the amount of chlorine and sediments in tap water, and its harsh effects, thus providing clean and clear showers for healthier skin and hair. It also reduces soap film build-up on shower doors, curtains and tiles.

- Quick and easy installation
- No skills or tools required
- Easy to back wash
- Reduces chlorine, sediments and odour in tap water
- For clean, clear and chlorine-free showers
- Healthier Skin & Hair
- Reduces soap film build-up on shower doors, curtains and tiles
- Suitable for shower points with minimum water pressure of 15 psi

### Tips For Installation

This unit is preassembled, it is not necessary to disassemble the unit in order to install. Remove the shower outlet hose from the heater. Attach Shower Filter SF101 to the instant water heater outlet bush as shown in figure. Fix back the shower outlet hose to the Shower Filter Outlet end as shown in figure. Drain water through the shower filter until water runs clear.

- Overhead fixed shower points

- Any instant hot shower outlet point

- Back wash connection

### Easy Back Washing

It is recommended to back wash the unit periodically when the shower flow is unsatisfactory.

### Operating Specifications

Maximum Water Temperature : 45°C  
Minimum Water Pressure : 15psi (1 bar)  
Maximum Water Pressure : 100psi
